

As an Indiana Citizen I am speaking out against preceeding 02-278. The current do not call list does exactly what it is suppose to do. Even though I am signed up to the federal one as well, it falls well short of truly doing what it is intended for. By passing this preceeding, all you are saying is that you don't truly care about the privacy of the Indiana Citizens. You might think of strengthening the federal one instead of weakening the Indiana one. Please consider this when deciding on this preceeding. Thank You.
